### IMPLANT LIST

#### HUMERAL SHELL
- SMALL HUMERAL SHELL: Cat. No. 124564
- MEDIUM HUMERAL SHELL: Cat. No. 124565
- LARGE HUMERAL SHELL: Cat. No. 124566
- X-LARGE HUMERAL SHELL: Cat. No. 124567

#### GLENOID BASE PLATE
- GLENOID BASE PLATE: Cat. No. 124572
- GLENOID BASE PLATE LONG (REVISION): Cat. No. 124575

#### GLENOID HEAD
- 36mm Dia GLENOID HEAD: Cat. No. 124573
- 41mm Dia GLENOID HEAD: Cat. No. 124574

#### HUMERAL LINER 36mm Dia
- 36mm, 3mm Lat, 10º: Cat. No. 124512
- 36mm, 6mm Lat, 10º: Cat. No. 124513
- 36mm, 9mm Lat, 10º: Cat. No. 124514
- 36mm, 12mm Lat, 10º: Cat. No. 124515

#### HUMERAL LINER 41mm Dia
- 41mm, 3mm LAT, 10º: Cat. No. 124522
- 41mm, 6mm LAT, 10º: Cat. No. 124523
- 41mm, 9mm LAT, 10º: Cat. No. 124524
- 41mm, 12mm LAT, 10º: Cat. No. 124525

#### STEMMED HUMERAL SHELL
- SMALL STEMMED HUMERAL SHELL: Cat. No. 124560
- MEDIUM STEMMED HUMERAL SHELL: Cat. No. 124561
- LARGE STEMMED HUMERAL SHELL: Cat. No. 124562
- X-LARGE STEMMED HUMERAL SHELL: Cat. No. 124563

#### BASE PLATE FIXATION SCREWS
- TITANIUM SCREW LOW PROFILE 5X15mm: Cat. No. 113843
- TITANIUM SCREW LOW PROFILE 5X20mm: Cat. No. 113844
- TITANIUM SCREW LOW PROFILE 5X25mm: Cat. No. 113845
- TITANIUM SCREW LOW PROFILE 5X30mm: Cat. No. 113846
- TITANIUM SCREW LOW PROFILE 5X35mm: Cat. No. 113847
- TITANIUM SCREW LOW PROFILE 5X40mm: Cat. No. 113848
- TITANIUM SCREW LOW PROFILE 5X45mm: Cat. No. 113861
- TITANIUM SCREW LOW PROFILE 5X50mm: Cat. No. 113862

#### RETENTIVE DEEP CUP HUMERAL LINER 36mm Dia
- 36mm, 3mm Lat, RET, 10º: Cat. No. 124517
- 36mm, 6mm Lat, RET, 10º: Cat. No. 124518
- 36mm, 9mm Lat, RET, 10º: Cat. No. 124519
- 36mm, 12mm Lat, RET, 10º: Cat. No. 124520

#### RETENTIVE DEEP CUP HUMERAL LINER 41mm Dia
- 41mm, 3mm Lat, RET, 10º: Cat. No. 124527
- 41mm, 6mm Lat, RET, 10º: Cat. No. 124528
- 41mm, 9mm Lat, RET, 10º: Cat. No. 124529
- 41mm, 12mm Lat, RET, 10º: Cat. No. 124530

#### HUMERAL HEAD
- HUMERAL HEAD 50mmx0mm: Cat. No. 124569
- HUMERAL MEGA HEAD 50mmx8mm: Cat. No. 124570

The Verso Shoulder is a stemless cementless, bone preserving system

The three fins of the humeral component provide a secure cortical fit without the need for conventional stem fixation

The Verso Shoulder System is versatile and provides options for primary, revision and salvage cases

- Bone impaction technique used for enhanced fixation even in cases of poor bone stock
- Provides joint stability without complex muscle transfers
- Patented 10 degree liners with low medial edge to avoid impingement and improve rotational movements
- Outstanding clinical and radiographic results
- Seven years of experience

Hundreds of cases implanted worldwide

Base Plate Fixation Screw
Titanium, low profile 5mm diameter screw sizes 15mm to 50mm long in 5mm increments
For additional fixation to ensure the Glenoid Base Plate does not de-rotate

Glenoid Base Plate
Tapered screw for secure primary fixation

HA coated screw thread for secondary fixation

Glenoid Head
36 and 41mm diameter options

Humeral Shell Stemless prosthesis
Stemless design avoiding humeral canal reaming thus preserving bone stock
Finned design in 4 sizes aids rotational stability and minimises bone resection
Porous titanium coating for enhanced bone ingrowth
HA coated to provide secondary fixation
Cementless fixation
Stemmed versions available for fractures and revision cases
Humeral heads available for conversion to hemiarthroplasty
