

READING SHOULDER FELLOWSHIP

READING SHOULDER UNIT

SENIOR CLINICAL & RESEARCH FELLOW
IN SHOULDER AND ELBOW SURGERY

Applications are invited from outstanding surgical candidates with FRCS (Orth) or equivalent for the post of Senior Clinical and Research Fellow in Shoulder and Elbow Surgery based at the Reading Shoulder Unit, Royal Berkshire Hospital and Berkshire Independent Hospital, Reading. This post is a training post in shoulder and elbow surgery and is suitable for Surgeons who have completed their Orthopaedic surgery training and are seeking experience in Shoulder and Elbow Surgery prior to obtaining a Consultant appointment. The post is available every January and July for 12 months.

Duties performed at Reading hospitals, on call 24 hour shift rota is possible.

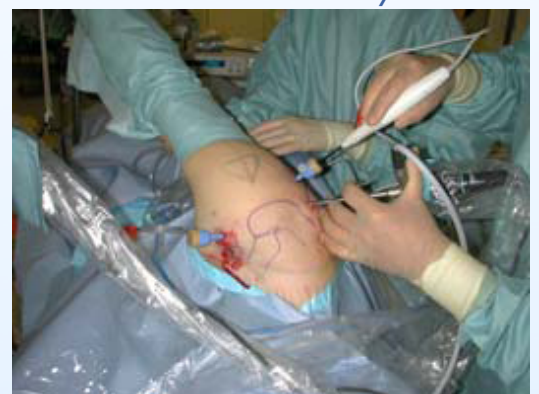

This Fellowship is recognised for training by the Royal College of Surgeons of England.

As part of the shortlisting process applicants may be expected to complete a brief test paper within time constraints, details of which will be provided at a later stage.
